Dhaka, Bangladesh

OBJECTIVE

Final-year Computer Science and Engineering student at BRAC University with a keen interest in artificial intelligence, machine learning, deep learning, data science, and software development. Passionate about learning new technologies and applying them to solve real-world problems.

EXPERIENCE

- **Undergraduate Teaching Assistant** February 2025 – June 2025
BRAC University Dhaka, Bangladesh
- **Examiner** November 2021 – June 2023
Udvash and Unmensch Academy Dhaka, Bangladesh

EDUCATION

- **BRAC University** January 2022 - Present
BSC in Computer Science and Engineering Dhaka, Bangladesh
 - GPA: 3.91/4.00
- **Viqarunnessa Noon School and College** 2020
Higer Secondary Certificate Dhaka, Bangladesh
 - Grade: GPA 5.00/5.00
- **Motijheel Ideal School and College** 2018
Secondary School Certificate Dhaka, Bangladesh
 - Grade: GPA 5.00/5.00

PROJECTS

- **Submarine Saga : Developed a 2D real-time submarine battle game** 2024
Tools: Python, OpenGL [G]
 - Developed a 2D real-time submarine battle game using Python and OpenGL with dynamic graphics, smooth animations, and interactive gameplay.
 - Implemented custom rendering algorithms, collision detection, and entities like sharks, torpedoes, and submarines.
 - Designed full game logic including power-ups, two-player mode, and event handling for a modular and immersive experience.
- **Healthy Habit: A web based diet planner** 2023
Tools: Laravel, MySQL, PHP, HTML, CSS, JS [G]
 - Built a diet planning web app using Laravel with MVC architecture.
 - Enabled users to track, manage and log daily meals and nutrition goals
 - Used MySQL for data storage and implemented user authentication.
- **Freelance Forge** 2025
Tools: MERN Stack (MongoDB, Express.js, React.js, Node.js), Mongoose, CSS, Vercel [G]
 - Developed a full stack freelancing platform enabling client-freelancer interaction, project posting, bidding, and direct hiring using the MERN stack.
 - Implemented secure user authentication, role based dashboards for freelancers, clients, and admins, along with profile management and activity tracking.
 - Integrated payment options, review systems, and escrow-based transaction handling to ensure transparent project management and reliable collaboration.
- **MiniVSFS: Simplified Block-Based File System** 2025
Tools: C Programming Language [G]
 - Developed MiniVSFS, a lightweight block-based file system with superblock, inode, and data bitmaps, supporting only the root directory.
 - Implemented MKFS_BUILDER to create file system images from command-line inputs and save them as binary files.
 - Built MKFS_ADDER to add files to existing file system images by parsing inputs and updating the binary image efficiently.

TECHNICAL SKILLS

- Languages : Python, Java, C, PHP, SQL, JavaScript, HTML, CSS
- Frameworks : Laravel, React, Node.js, Bootstrap, WordPress
- Developer Tools : LaTeX, Git, MySQL, Xampp, VS Code, Figma
- Libraries : Scikit-learn, Pandas, NumPy, Matplotlib
- Platforms & OS : Linux, Arduino, Raspberry Pi
- Soft Skills : Time Management, Leadership, Communication

RESEARCH

• A Transformer-Based Framework for Neuro-degenerative Assessment

Project Member, B.Sc. Thesis (In Progress)

- Leading a team in authoring a B.Sc. thesis proposing a novel, modality-aware **Transformer** framework for diagnosing neurodegenerative diseases from multi-modal neuroimaging data.
- Architecting a core framework with a "**modality dropout**" scheme to build a system robust to incomplete clinical data — a critical challenge for real-world deployment.

ACHIEVEMENTS

• Merit Scholarship Based on BRAC University Academic Results

BRAC University

• Scholarship Based on Previous Academic Results (HSC and SSC)

BRAC University

- Received a merit-based scholarship from BRAC University for achieving a perfect GPA of 5.00 in all subjects in both SSC and HSC examinations.

• Government merit based scholarship

2012 & 2018

Dhaka Board

- Received for exemplary results in both Primary Education Completion and Secondary School Certificate examinations.

CERTIFICATIONS

• Datacamp - MLOps Fundamentals

2025

- Completed courses on developing machine learning models for production.
- Gained practical understanding of the machine learning lifecycle and MLOps best practices.
